

HR

Kada se iz pravca *Krka* spuštamo slikovitom *Baškom Dragom* prema mjestu *Baška*, na padini s desne strane ceste zapaziti ćemo stjenovitu barijeru. Stijena je sive i dijelom žute boje, a kamen je oštar, od vode dobro erodiran vapnenac. Smjerovi su nižih i srednjih teškoća, uz nekoliko težih linija. Većina smjerova je dugih, čak do 30 m visine. Iznimka je sektor *A*, koji nudi nešto kraće, ali i dalje lijepe i zanimljive smjerove. Penje se uglavnom po položenim ili strmim pločama koje zahtijevaju dobru tehniku. Opremljenost penjalšta je vrlo dobra. Najbolji period za obilazak ovog penjalšta je od proljeća do jeseni. Ljeti je stijena u hladu već u rano poslijepodne, a tu je i gotovo uvijek prisutni povjetarac koji ugodno hladi.

Noćenje: Kampovi u okolici *Baške* (<http://tz-baska.hr/baska/>).

D

Fährt man aus *Krk* kommend die malerische Bucht *Baška Draga* Richtung *Baška* runter, bemerkt man am Hang rechts von der Straße den Felsriegel. Der graue und teilweise gelbe Kalkstein ist scharf und vom Wasser zerfressen. Die Routen bewegen sich im unteren und mittleren Schwierigkeitsgrad, es gibt jedoch auch ein paar schwerere. Sie sind größtenteils recht lang, bis zu 30 m. Eine Ausnahme ist der Sektor *A*, der zwar kürzere aber nicht minder schöne und interessante Routen anbietet. Man klettert vornehmlich an liegenden und etwas steileren Platten, für die eine gute Technik notwendig ist. Die Absicherung ist sehr gut. Die beste Zeit zum Besuch dieses Gebietes ist von Frühling bis Herbst. Im Sommer ist der Fels schon am frühen Nachmittag im Schatten und es gibt dort fast überall ein angenehm kühlendes Lüftchen.

Zusätzliche Informationen: www.climbinbaska.com.

Übernachtung: Zeltplätze in der Umgebung von *Baška* (<http://tz-baska.hr/baska/>).

GB

When you descend from the direction of *Krk*, through the picturesque *Baška Draga* and toward the town of *Baška*, you will see a rocky barrier on the slopes on the right. The rock is grey and partly yellow, a limestone made sharp from the effects of water. The routes are of low and medium difficulty, with a few lines of a more difficult grade. Most routes are long, up to 30 m. The exception is sector *A*, it offers a bit shorter, but still beautiful and interesting routes. This location offers mostly angled or steep slabs that require a good technique. The crag is very well equipped. The best period to visit this crag is between spring and autumn. During the summer, the rock face is already in the shade from early afternoon, and there is always a breeze that pleasantly cools.

Accommodation: Camps near *Baška* (<http://tz-baska.hr/baska/>).

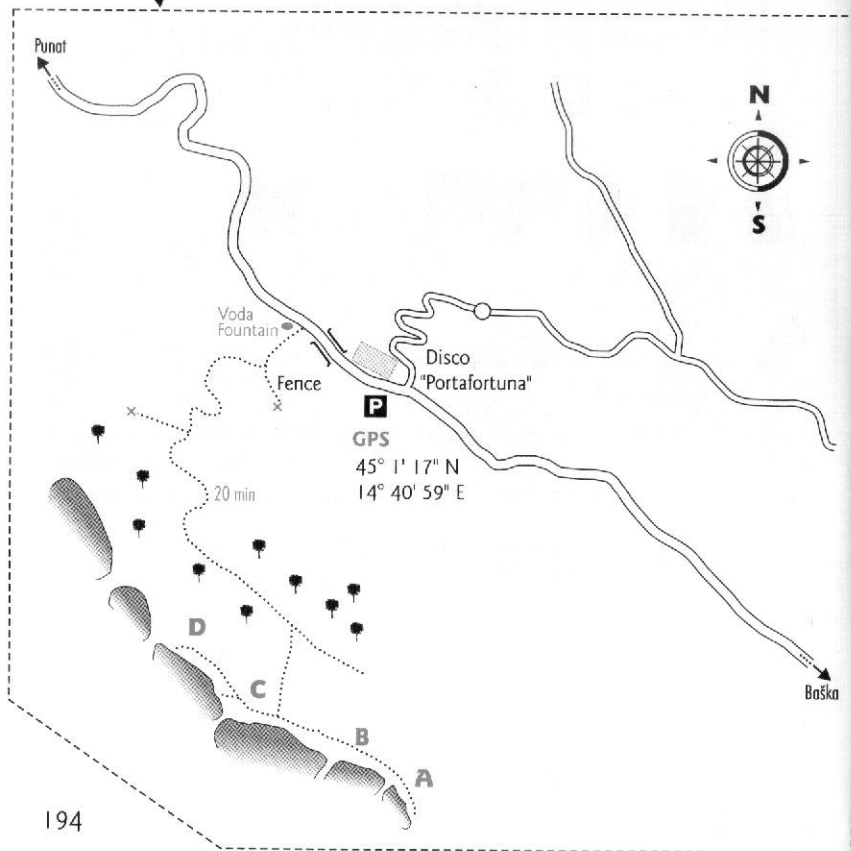

I

Quando discendete dalla direzione di *Krk*, attraverso il pittoresco luogo di *Baška Draga* e verso *Baška*, vedrete una barriera rocciosa sulla pendenza a destra. La parete è grigia e parzialmente gialla, il calcare fatto tagliente dagli effetti di acqua. Le vie sono di bassa e media difficoltà, e ci sono alcune linee più dure. La maggior parte delle vie sono lunghe, fino a 30 m di altezza. L'eccezione è il settore *A* che offre vie non tanto lunghe, ma nondimeno belle ed interessanti. Troverete per lo più placche inclinate o ripide che richiedono una buona tecnica. La falesia è ben attrezzata. Il periodo migliore per visitare questa falesia è tra la primavera e l'autunno. Durante l'estate, la parete è già in ombra dal primo pomeriggio, e c'è sempre una brezza che rinfresca piacevolmente.

HR

Penjalište se nalazi s istočne strane zaljeva *Bunculuka*, pet minuta od istoimenog kampa. Maleno je i bez dodatnih mogućnosti. Može poslužiti u slučaju kad se nakon morskih aktivnosti zaželimo i malo penjanja.

Dodatne informacije: www.climbinbaska.com.

Noćenje: Kampovi u okolici *Baške* (<http://tz-baska.hr/baska/>).

D

Das Klettergebiet befindet sich auf der östlichen Seite der Bucht (*Bunculuka*), 5 min vom gleichnamigen Zeltplatz entfernt. Es ist zwar klein und ohne zusätzliche Klettermöglichkeiten, aber es erfüllt seinen Zweck, wenn man nach den Aktivitäten im Meer noch ein wenig klettern will.

Zusätzliche Informationen: www.climbinbaska.com.

Übernachtung: Zeltplätze in der Umgebung von *Baška* (<http://tz-baska.hr/baska/>).

GB

The crag is located on the eastern side of the *Bunculuka* bay, 5 minutes from the camp of the same name. This is a small crag without additional possibilities. It comes in handy if you feel like climbing a bit after some seaside activities.

Additional information: www.climbinbaska.com.

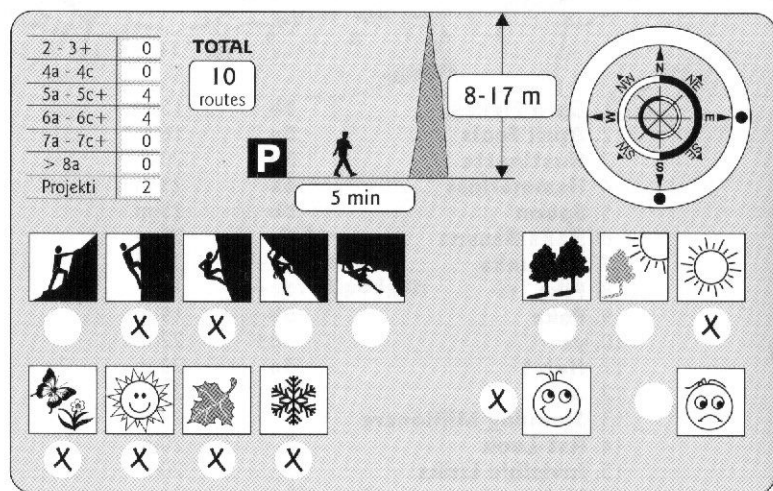

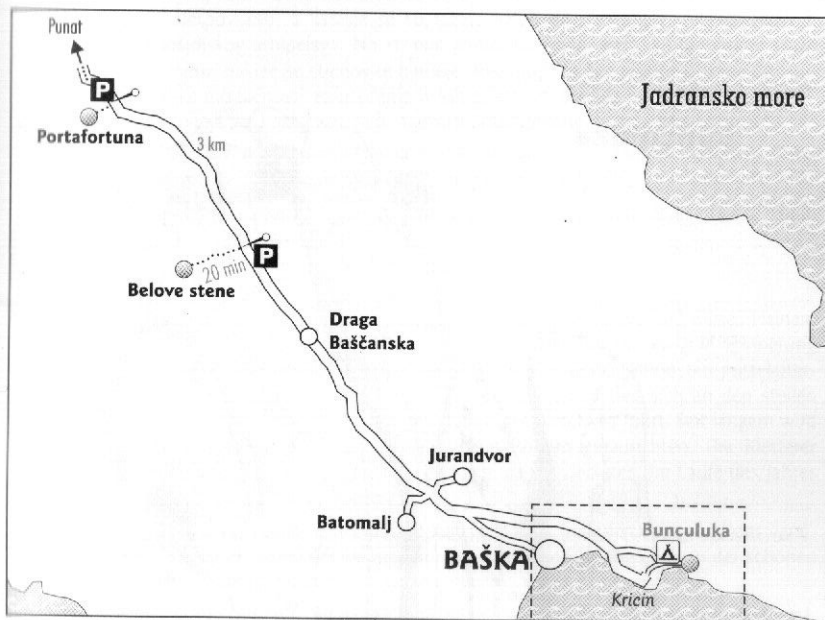

Accommodation: Camps near *Baška* (<http://tz-baska.hr/baska/>).

I

La falesia si trova sul lato orientale della baia di *Bunculuka*, cinque minuti dal campeggio omonimo. La falesia è piccola e senza ulteriori possibilità. Essa è utile se avete voglia di arrampicare dopo le attività al mare.

Informazioni aggiuntive: www.climbinbaska.com.

Alloggio: Campeggi vicino a *Baška* (<http://tz-baska.hr/baska/>).

HR

O ljepoti ovog naselja šire se mnoge priče, a slika tog malog, tipično mediteranskog naselja smještenog na strmoj litici visoko nad morem, ostaje još dugo urezana u sjećanje. Mjesto je naseljeno još u pretpovijesti, a kasnije se tu razvio jedan od najstarijih srednjovjekovnih gradova cresko-lošinjskog arhipelaga. Na strmim padinama podno sela, s obje strane staze koja vodi prema moru, nalaze se stjenovite barijere. Već dugo se šire glasine o tome da su u tim stijenama velike mogućnosti za uređenje novih smjerova. Možda iz respekta prema idili ovoga područja – penjači su oklijevali. Ipak, tijekom 2000. godine nastaju prvi smjerovi...

Napomena: Zbog dotrajale opreme penjalište je potrebno preopremiti (sanirati). Zbog prekrasnog ambijenta i velikog potencijala ipak smo ga uvrstili u vodič.

Noćenje: Kamp Zdovica (Valun), kamp Slatina (Martinsćica), kamp Bijar (Osor), kamp Kovačine (Cres).

D

Von der Schönheit dieser Siedlung berichten viele Geschichten und das Bild dieses kleinen, typisch mediterranen, hoch über dem Meer platzierten Ortes bleiben ewig in Erinnerung bleibt. Er wurde schon früh bevölkert. Später entstand hier eine der schönsten mittelalterlichen Städte der Inselgruppe Cres und Lošinj. Die Felswände befinden sich an den steilen Abhängen unter dem Dorf auf beiden Seiten des Pfades, der zum Meer führt. Seit langem wird davon gesprochen, dass es hier möglich wäre, neue Routen einzurichten. Die Kletterer zögerten, vielleicht aus Rücksicht gegenüber der Idylle dieses Gebietes. Im Laufe des Jahres 2000 entstanden jedoch die ersten Routen...

Anmerkung: Das Klettergebiet sein muss neu ausgestattet (repariert) aufgrund der veralteten Anlagen. Allerdings haben wir es aufgenommen, um die Führungen wegen der schönen Umgebung und sein großes Potenzial.

Stützpunkte: Campingplatz Zdovica (Valun), Campingplatz Slatina (Martinsćica), Campingplatz Bijar (Osor), Campingplatz Kovačine (Cres).

GB

Many stories about the beauty of this place have been told. The image of this small Mediterranean town located on a cliff high above the sea remains in one's memory for a long time. This town was established in ancient times, and later on developed into one of the oldest medieval towns of Cres-Lošinj archipelago. On steep slopes underneath the village, on both the sides leading to the sea, rocky walls are located. Rumours have been spreading saying that many new routes could be developed in that area. Climbers were reluctant to climb those rocks – maybe because of a high respect they had for this idyllic region. However, in the year 2000 first routes have been established...

Note: The crag needs to be re-equipped (repaired) due to the obsolete equipment. However, we added it to the guide due to the beautiful surroundings and its great potential.

Accommodation: Campsite Zdovica (Valun), Slatina (Martinsćica), Bijar (Osor), Campsite Kovačine (Cres).

I

Corrono molte voci sulla sua bellezza e le immagini di questo piccolo paese mediterraneo tipico, situato altamente sopra il mare, su un scoglio ripido, restano impresse nella nostra memoria a lungo. Il paese è stato popolato nel passato antico per poi diventare una delle più antiche città medievali dell'arcipelago di Cherso e di Lussino. Sui ripidi pendii alla base del villaggio, da ambe due le parti del sentiero che porta al mare si trovano le barriere rocciose. Da moltissimo tempo girano le voci sull'enorme potenziale per attrezzare le vie in queste pareti. Gli arrampicatori hanno esitato forse per il rispetto dell'idillio di questa zona. Tuttavia durante il 2000 nascono le prime vie...
